

The Women's Center

safety • stabilization • transformation

The Women's Center is an established stabilization gateway and assessment center for homeless women providing a safe low-barrier and client-centered environment for women. Working tirelessly for the Triangle community for over 40 years, the Women's Center offers critical basic needs including both primary and mental healthcare, day storage, clothing, meals, hygiene, medications, transportation, and access to phone/wifi/mail. It does not provide overnight shelter.

Through our informed staff, volunteers and community partners, the Center works with each individual woman to break the cycle of trauma and abuse and assist her in achieving self-sufficiency and safe affordable housing.

2019 IMPACT

- 847 unique/unduplicated Women's lives improved
